School Year: _____

National Honor Society Community Service Tracker

Directions: Per the Pullin Poynte Bylaws voted into effectiveness in January 2022, National Honor Society members are required to complete 30 hours of community service. You may complete these hours in a group (30 per person), or independently. You must complete and fill in this tracker completely to receive credit for this year's community service requirements.

You must select a project from the list that is provided to you on Google Classroom of acceptable projects, and information on how to set up your hours.

Date ranges will not be accepted, each row should reflect 1 day of service, the hours you served, the organization you served, a description of the activities you did on that date, and that date must be signed off on to show the member's progression of service throughout the year (i.e. you may not have 1 row filled out with 30 hours served between September-April).

Due Date: May 1

Date 1 date per row	Number of Hours Served on date	Name of Organization Served on date	Description of Service Completed on date	Signature of Supervisor 1 signature per row—may not be related to
